

# Frontend Workflow Guide for Interns

## Step-by-Step Workflow for Each Intern

1. Clone the repository:

```
git clone https://github.com/YOUR_ORG_NAME/service-booking-frontend.git  
cd service-booking-frontend
```

2. Checkout your assigned branch (example for Customer UI):

```
git checkout feature/customer-ui
```

3. Code only in your assigned folder:

Intern 1 -> src/pages/customer/

Intern 2 -> src/pages/vendor/

Intern 3 -> src/pages/admin/

Intern 4 -> src/components/, auth/, context/

4. Stage and commit your changes:

```
git add .  
git commit -m "feat: add booking page"
```

5. Push your code to GitHub:

```
git push origin feature/customer-ui
```

6. Open a Pull Request:

- Go to GitHub repository page
- Click "Compare & pull request"
- Base: main, Compare: your branch
- Describe your changes and submit PR

7. After approval and merging, sync your branch:

```
git pull origin main
```

# Frontend Workflow Guide for Interns

## Assigned Branches and Folders

Intern	Branch Name	Folder Path
-----
